Frontend: HTML, CSS, JavaScript, **React**, **Next.js, React Native**, Responsive Design, **UI/UX Fundamentals.**

Backend: Node.js, Express, REST APIs, Authentication, **API Integration.**

Database: SQL, MongoDB, **Firebase**, Database Design**, Data Validation.**

Tools & Platforms: Git, **GitHub**, **Figma**, **Vercel**, Agile/Scrum, **VS Code.**

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer   Jan 2022 – Feb 2023

Innoventix Solutions | Remote

- Built and maintained **5+ responsive web pages** using React and CSS, ensuring cross-browser compatibility.
- Developed **10+ RESTful API** endpoints using Node.js and Express for internal data management tools.
- Created 15+ interactive **dashboards** integrating frontend with backend data using **JavaScript and SQL.**
- Collaborated with 3 **cross-functional teams** to gather requirements and implement user-facing features.
- Resolved **50+ bugs** through code reviews and **debugging**, improving application stability.

Full Stack Developer Intern   Mar 2021 – Dec 2021

Innoventix Solutions | Remote

- Assisted in building 5+ web pages using HTML, **CSS**, and **JavaScript** under senior developer mentorship.
- Wrote 15+ SQL queries for backend **data extraction** and **integration** with web applications.
- Created reusable UI components and simple forms to support frontend development.
- Validated and organized 3,000+ records for database integration into web applications.
- Collaborated on 2 cross-functional projects, gaining hands-on experience in Agile workflows and **Git version control**.

PROJECTS

Landscaping Business Management Web Application

React, Next.js, Node.js, SQL, Google Calendar API, Figma, GitHub

- Developed full-stack web application using React and **Next.js/Node.js** to automate client **booking and payments**, streamlining business operations
- Designed SQL database schema with data encryption and PIPEDA compliance, achieving secure and efficient data management
- Integrated **Google Calendar API** for real-time appointment synchronization, reducing scheduling conflicts by 67%
- Built automated invoice generation, **e-signature contracts**, and **mobile-friendly UI**, reducing administrative tasks by 60%

EDUCATION

Postgraduate Diploma in Software Development *September 2024 - Present*

Southern Alberta Institute of Technology (SAIT), Calgary, AB, Canada

Bachelor of Applied Science - BASc, Information Technology *July2016 - August 2019*

Gujarat Technological University (GTU), Anand, India

VOLUNTEERING WORK

Event Coordination   Mar 2021 – Dec 2021

ISKCON

- Large-Scale Operations – Coordinated food distribution for 500+ attendees, building process optimization skills.
- Real-Time Problem Solving – Managed logistics on the fly, developing analytical and debugging skills.
- Mentorship – Trained new volunteers by simplifying complex processes into clear steps.
